INTRODUCTION

The program introduces the participant to the multitude of obligations of being an Owner Builder. It will also provide the participant an insight into:

- The compliance obligations relating to building, renovating and refurbishing a home
- The supervisory and management issues relating to managing a building site
- Their responsibility to occupational health and safety during the construction process
- Their ability to read and interpret drawings and specifications
- The essential financial aspects relating to estimating, cash flow and job costing
- The critical areas of contracts and contract management with suppliers and contractors
- How important effective communication is to the project.

LANGUAGE, LITERACY AND NUMERACY (LLN)

Your literacy skills will need to be at the level of competence required by a Year 10 student which will form the basis of your learning. Many people are in a situation where English is not their first language, or they left school early, or have been in a career which has not provided much experience with written communication.

Don't worry – literacy support can simply be factored into your training and assessment if you need it. It is the responsibility of the trainer to support all participants with LLN as part of their obligations under the Australian Quality Training Framework (AQTF).

The Department of Education, Science and Training (which has responsibility for VET nationally), also has a Workplace English Language and Literacy (WELL) Program to assist adults with literacy in the workplace. You can talk to your trainer, and/or contact the Reading and Writing Hotline on 1300 6555 06 for information or advice about literacy, and the numerous resources which are available to assist people. Alternatively, visit the Reading and Writing Hotline website at www.literacyline.edu.au/

PROGRAM OUTLINE

The program is made up of five modules:

1. PREPARE TO BE AN OWNER-BUILDER

- Becoming an Owner Builder
- House Construction
- The Professionals
- The Authorities
- Compliance with Legislation & Regulations
- The Approval Process
- Insurance
- Licensing Requirements
- Definitions.

2. ADMINISTER CONTRACTS

- Contracts
- Administration
- Job File
- Site Diary.

3. OCCUPATIONAL HEALTH & SAFETY

- Legislative Requirements
- Hazard Assessment
- Ensure Safety on Site
- Falls
- Moving Plant
- Electrical Safety
- Safety Signs
- Formwork & Falsework
- Exclusion Zones – NO GO Zones
- Demolition Safety
- Asbestos
- OH&S Construction Induction
- Manual Handling
- Noise
- Personal Protective Equipment (PPE)
- Codes of Practice
- Safe Work Method Statements (SWMS)
- Site Security
- Hazardous Substances
- Material Safety Data Sheets (MSDS)
- Plant & Equipment.

4. DRAWINGS, ESTIMATING, CASH FLOW

- Drawings & Specifications
- Estimating
- Developing the Project Cash Flow
- Job Costing
- Definitions.

5. MANAGING THE WORK

- Managing the Site
- Communication
- Writing Good Letters
- Writing Reports
- Negotiation
- Avoiding Disputes
- Meetings
- Planning
- Site Survey & Site Preparation
- Amenities for Construction Work
- Waste Management
- Site Inspections.

THE PARTICIPANTS GUIDE

The *Participants Guide* provides the following information:

- Subjects relating to the building, renovation or refurbishment of a home.
- Learning Activities against each topic.
- Self Test Questionnaires against each topic.
- Reference Guide as to where further information can be obtained.

The *training* is designed for flexible delivery and may be delivered in the following ways:

- By Distance Learning. If the participant is a person who can study independently this could be to their advantage. The participant is able to study at home with the support from the trainer.
- By a combination of face to face instruction, independent study and completing a range of Learning Activities that will require the participant to research certain information obtained through relevant websites, government authorities, booklets, etc. with the support from the trainer.
- In a registered training institution over a period of 2 days of face to face instruction from a suitably experienced and qualified trainer.

The successful completion of this program will result in the participant being able to apply for a **Home Owners Builders Permit in NSW**.

LEARNING ACTIVITIES & SELF TEST QUESTIONNAIRES

The Learning Activities and the Self Assessment Questionnaires are designed to reinforce the learning contained within each topic.

The Learning Activities in particular are also designed to allow you the Owner Builder to relate each topic to your own project.

Discuss each activity with your trainer, they are able assist you in determining if the evidence you collect against each activity is relevant to your project.

Your trainer may also be able to help you to locate other resources or materials which could assist you, for example - access to existing correspondence, reports etc from a typical Owner Builder project which may give you ideas about how to proceed.

REFERENCE GUIDE

The Reference Guide at the end of each topic will provide the Participant information as to where they can access further information than that provided in this guide. Related websites will be listed. A list of the Legislation and Regulations will be provided as a summary of each topic. Also included is a list of recommended reading options or resources that may assist the participant to gain a more in-depth insight into the topics outlined in each section.

MODULE 1

Becoming an Owner-builder

Introduction	4
Getting a Permit	6
Self Test Questionnaire 01	11

House Construction

Introduction	12
Stages of Construction – Before you Start Building	15
Preliminary Checklist	16
Sequence of Work	17
Stages of Construction – The Building Process	18
Self Test Questionnaire 02	23

The Professionals

Introduction	24
Choosing a Certifying Authority	27
Builders	29
Subcontractors	30
Twelve Important Questions to Ask a Building Contractor	33
Self Test Questionnaire 03	38

The Authorities

Introduction	40
Department Infrastructure Planning and Natural Resources (DIPNR)	43
NSW Fair Trading	44
Building Professionals Board	46
Council Functions	47
Mine Subsidence Board (See Page 41 & 94)	50
Australian Safety and Compensation Council (ASCC)	52
The New National OHS Framework	53
WorkCover	54
Publications – Available From All WorkCover Offices	56
Self Test Questionnaire 04	60

Compliance with Legislation and Regulations

Local Government Act 1993	62
Home Building Act 1989	62
Environmental Planning and Assessment Act 1979	64
Building Sustainability Index (BASIX)	66
National Standard for Construction Work	68
Occupational Health and Safety Act 2000	70
Complying with the Australian Standards	72

Australian Standards Relating to Domestic Construction	73
Where to Buy the Australian Standards	74
Building Code of Australia (BCA)	75
Section 3 – Acceptable Construction	77
NSW Housing Code	78
Self Test Questionnaire 05	83
The Approval Process	
Development Applications	85
Legislation and Planning Instruments	88
What is a Development Control Plan (DCP)	89
Assessment of the Development Applications	90
Mine Subsidence Board	94
Self Test Questionnaire 06	98
Insurance	
Introduction	100
Summary of Policy Covers	101
Insurance Providers	105
Home Warranty Insurance	106
Workers Compensation Insurance	113
Workers Compensation for Contractors and Subcontractors	114
Workplace Injury Management	117
Self Test Questionnaire 07	121
Licensing Requirements	
Home Building Licence	123
Licence Categories	123
Home Building Licence Check	125
Occupational Licensing	126
Self Test Questionnaire 08	130
Definitions	131
Further Reference	134

MODULE 2

Contracts

What is a Contract?	3
Types of Building Contracts	9
Contract Documentation	14
Contract Checklist When Entering a Contract with a Builder	17
Contract Checklist When Entering a Contract with a Subcontractor	18
Fundamentals of Contract Administration	24
Contracts Administration	26
Prior to Raising the Contract	27
Raising the Contract	28
Contract Terms	30
Self Test Questionnaire 09	40

Administration

Introduction	45
Job Reporting & Site Progress Reports	46
Business Forms	48
Materials & Plant Administration	54
The Order System	55
Memo & Credit Request	57
Self Test Questionnaire 10	63

Job File

Setting up the File	65
Job File Sections	66
Documentation Summary	71

Site Diary

Introduction	74
Sample Diary	75
Self Test Questionnaire 11	78

Further Reference

80

MODULE 3

Legislative Requirements

Occupations Health & Safety	5
Relevant Acts Associated with Safety	6
Penalties	7
Workplace Injury Management and Workers Compensation Act in Summary	7
Regulations Relating to Safety in New South Wales	9
Who is in Control?	10
Australian Safety & Compensation Council (ASCC)	12
The New National OHS Framework	13
National Standard for Construction Work	14
Documentation	16
Daily Site Procedures Relating to Safety	17
Self Test Questionnaire 12	19

Hazard Assessment

Identifying Hazards	21
Designated OHS Personnel	25
Consultation Flow Chart	26
In Summary	27
First Aid Regulation	28
First Aid Kits	28
Register of Injuries & Treatment	30
Emergency Procedures	33
Fire Fighting Equipment	39
Incident Reporting (See Page 56)	41
Self Test Questionnaire 13	43

Ensure Safety On Site

Introduction	46
Trenches and Excavations	46
Dusts	47
Electricity	47
Head Injuries	48
Falls (See Page 61)	48
Ladders (See Page 67)	49
Scaffolding (See Page 65)	50
Explosive Power Tools	51
Bad Backs	52
Noise (See Page 140)	52
Eye Injuries	53
Skin Cancer	53
Chemicals	54

First Aid (See Page 28)	55
Reporting Accidents and Dangerous Occurrences (See Page 41)	56
Other Considerations:	57
In Summary	57
Self Test Questionnaire 14	60
Falls (See Page 48)	
Prevention of Falls in General Construction	61
Falls From More Than 2 Metres	62
Height Safety in Summary	64
Scaffolding (See Page 50)	65
Moving Plant	70
Electrical Safety	74
Safety Signs	79
Formwork and Falsework	
Introduction	82
Minimum Requirements	83
Formwork Checklist	86
Formwork Failures	88
Exclusion Zones – No Go Zones	
Introduction	90
Overhead Services	91
Underground Services	92
What is Needed to Know Before Starting Work?	93
What is Needed Before Starting Work?	94
Safe Systems of Work	102
Communication Systems	103
Self Test Questionnaire 15	107
Demolition Safety	
The Preliminary Survey	110
Demolition Checklist	111
Execution	113
Asbestos	
Introduction	115
Responsibilities	117
Asbestos Management Plan	118
Risk Assessment	124
Control Measures	124
OH&S Construction Induction	
Record Keeping Requirements	129
OHS General Induction Register	130

Self Test Questionnaire 16	132
Manual Handling	
Introduction	133
Manual Handling Checklist	137
Noise (See Page 52)	140
Personal Protective Equipment (PPE)	
Occupational Health & Safety Regulation 2001 (NSW)	144
Personal Protective Equipment Identification Checklist	147
Self Test Questionnaire 17	149
Codes of Practice	150
Safe Work Method Statements (SWMS)	
Introduction	153
Job Safety Analysis	154
WorkCover Example	155
Site Security	157
Hazardous Substances	
Introduction	160
Competency of Persons Carrying Out Duties	161
Hazardous Substances/Dangerous Goods/MSDS Register	162
Hazardous Substances Safety Checklist	163
Labels	164
Risk Assessment	165
Managing Risk – A 10 Step Plan	165
Selection of Personal Protective Equipment	177
Material Safety Data Sheets (MSDS)	
Introduction	179
Sample Material Safety Data Sheet	181
Self Test Questionnaire 18	183
Plant and Equipment	
Hazard Identification	185
Plant and Equipment Hazards	186
Practical Solutions	187
Plant Requiring Certified Operators	188
Machine Guarding	188
Safe Use of Explosive Power Tools	189
Safe Use of Hand Tools	191
Avoiding Injury Whilst Using Hand Tools	195
Self Test Questionnaire 19	197
Further Reference	199

MODULE 4

Drawings & Specifications

Introduction	3
Building/Construction Drawings	7
Specifications	15
Self Test Questionnaire 20	20

Estimating

An Outline of an Estimate	22
Components of Net Cost	22
Diagrammatic Layout of Estimate Compilation	25
Materials Control	27
Subcontractor Relationships	29
Trade Order	32
Preliminaries	32
The Builders Take Off	41
GST Considerations	43
Subcontract Work in Relation to the Take Off	45
The Contractors Quotation	50
Notes to Tender	53
Key Factors to Consider in a Quotation from a Subcontractor or Supplier	54
Self Test Questionnaire 21	57

Developing the Project Cash Flow

Sections of a Cash Flow	59
The Project Cash Flow Projection	60
Projected Cash Outgoings – Example Only	62
Construction Cash Flow	63
Self Test Questionnaire 22	66

Job Costing

Introduction	67
Comparison of Actual Costs Against Original Budget – Example	68

Definitions	71
--------------------	----

Further Reference	78
--------------------------	----

MODULE 5

Managing the Site

Introduction	5
7 Ways to Succeed as a Project Manager	5
7 Ways to Fail as a Project Manager	6
Project Management Functions	8
Self Test Questionnaire 23	11

Communication

Have a Communication Plan	12
The Communication Process	15
Planned Communication	15
Causes of Communication Barriers	16
Factors that will Effect Communication	17
Listening in Communication	17

Writing Good Letters

Laying out a Letter	20
Structuring Your Letters	21
Writing Memos, Facsimiles & Emails	26
Email Communication	29

Writing Reports

Preparing Your Report	30
Variations in Report Format	32
Self Test Questionnaire 24	36

Negotiation

Definition	37
Negotiation Outcomes	39
Fischer's 7 Elements of Negotiation	41
Basic Principles	42
Self Test Questionnaire 25	45

Avoiding Disputes

Introduction	46
Conflict	47
Conflict Resolution Methods	48
4 Stages of Conflict Resolution	50
Resolving Conflict	51
Building Disputes & Resolution	54
Self Test Questionnaire 26	57

Meetings

Introduction	59
Meeting Notice	60
Lead Up Meetings	61
Examples of Site Meeting Minutes	62
Self Test Questionnaire 27	67

Planning

Introduction	68
Construction Planning – What is it?	69
Construction Checklist	71
Program Management	74
Bar Charts	75
The Programming Process	80
Fine Tuning the Planning Process	84
Self Test Questionnaire 28	88

Site Survey & Site Preparation

Surveying Techniques	89
Levelling	90
Surveying Equipment	91
Simple Surveying Techniques	93
Site Preparation	97
Site Set Out	98
Self Text Questionnaire 29	107

Amenities for Construction Work

Types of Workplaces	108
General Provision for all Workplaces	109
Self Test Questionnaire 30	112

Waste Management

Where to Begin	113
Reuse and Recycle	115
Self Test Questionnaire 31	118

Site Inspections

What Inspections are Necessary?	119
Site Inspection Plan	120
Site Report	121
Statutory Information Form	123
What is a Dilapidation Report?	129
Council Private Certifier Inspections	132
Inspection of Essential Services	133
WorkCover Inspectors	134
Extracts of the OH&S Act	135
Site Safety Inspectors Checklists	139
Quality Inspections – Building Defects	141
Structural Cracking & Movement	141
Deformation	146
Dampness	149
Damp & Infestation	151
Structural Timber Pest Damage	155
Self Test Questionnaire 32	159

Further Reference	161
--------------------------	-----
